Fire Chief- Board Report

David Jensen, Fire Chief

February 2025

February

- **Community Outreach**

- **Lions Club Meeting**

- On March 3rd, Division Chief Grant and I attended the Lions club meeting where I provided a district overview and spoke about all aspects of our District. There was a wide variety of questions ranging from funding of ambulance service, FireMed Program, and a future Station.

- **Budget Process (In Progress)**

- Our internal budget process has begun for Fiscal Year 2025-26. Staff are collecting data and in the planning process. We are focusing on creating more efficiencies in our Materials and services lines and adjusting our long-range reserve fund schedules based on the dramatic increases in apparatus costs.

- **Ambulance Interfacility Contract**

- Chief Beckner and I met with Metro West (ambulance service) concerning a contract to allow them to conduct interfacility transfers and back up our ambulance 911 service under certain conditions. We are in general agreement with most provision and we are just waiting to hear back on some suggested language changes. Following our agreement, the ambulance service would then need a separate contract with the hospital and we would need to make notification to Wasco County.

- **Standards of Cover Update and Community Risk Assessment (100%)**

- The SOC and CRA project is complete in its draft for board review. Ultimately, the Standards of Coverage should be adopted by the board of directors. I will provide a brief presentation of the document at the March 17th board meeting and am open to questions and clarification. Because it is such a lengthy document, I would propose that the board takes the next month to consider the standard of coverage at the next board meeting.

- **Dispatch CAD (Computer Automated Dispatching) (Status Quo)**

- Our contract terms are finalized with the selected CAD vendor, Pro Pheonix. The City of The Dalles would like to update our general services agreement between the three sponsors of the Dispatch center so they can bring both of their contracts to the city council at the same time. The draft agreement has been sent out and our attorney has reviewed and provided comments.

- **Petersburg Rangeland Fire Protection Association Mutual-Aid Agreement**

- I have been in discussions with Mike Urness, Lead of the Petersburg Rangeland Fire Protection Association about a mutual-aid agreement. We have discussed some limitations to the agreement. Initially, I proposed supporting PRFPA with Water Supply

and in return allowing their association to operate within the MCFR district with heavy equipment on MCFR fires. The real goal for the District is to establish norms, structure, and a coordinated response.

The association met for a board meeting on March 6th but did not have full attendance by their board members, so no formal decision was made. Initial discussion indicated the lack of need for additional water supply from MCFR. I have asked what their needs are and I am awaiting their reply at the time of this report.

- **Promotion and New Hires (Status Quo)**

On March 10th and 11th, three Lieutenants tested for positions with the District. As a part of the 3-company response model we have been working on for nearly a year, we are preparing to be able to promote 3 more Lieutenants to be on the line and operational for a July timeline. Currently we have 6 company officers allowing for 2 engine companies, we are anticipating being in the position to change our deployment strategy to a “Jump Staffing” model, which is what Station 2 is operating as right now. Three current firefighter positions are being converted to lieutenant positions. This change within the budget year will keep the District within the adopted Public Safety Personnel Services Budget. With these changes, we aim to regularly be able to avoid the over deployment of resources to basic medicals calls and add the Ladder Truck to the response model for fires and special responses.

- **Legislative**

I am scheduled to attend a Special Districts Association Legislative reception in Salem for Oregon law makers on March 12th. I will use the same talking points I have previously been communicating on regarding the apprenticeship program, seasonal funding, mitigation grant success stories, and support for maintaining air resources in The Dalles.

- **ISO (Status Quo, Awaiting Report)**

Our information was submitted by the ISO Field Representative in late February. He anticipates we should hear something back from ISO within one or two months. We look forward to hearing what they have found.

February 2025

The district had five (5) fires with loss in February 2025. Total Value at Risk was \$2,467,600 with a loss of \$107,540. The largest loss occurred (\$51,000) at a roof/attic fire that was above the ceiling of a single family dwelling a few blocks from the fire station. The fire started in the attic and the residents reported that they had some electrical issues. The fire was an electrical failure. The next loss was two vehicles that hit head-on during a snow event where one cars engine ignited following the accident, causing fire damage to both vehicles. Both vehicles were a total loss. A stolen vehicle was maliciously burned in the early morning hours after the car was abandoned on a city street. There was a dumpster fire causing minor heat damage to the dumpster; a fire in a non-operational box van being used as a storage unit damaged all the contents within; and finally, a cooking fire where the resident forgot she had food on the stove.

With new Division Chief Chris Grant's arrival, a great deal of time was spent on district familiarization, introducing him to various external partners and customers as well as going over policies, procedures and other internal processes. DC Grant has jumped right in and has taken the lead in most of our external interactions and is professional in his approach and will be a good public facing representative of the district moving forward. He has led tours, met with the public in various capacities and I feel good about turning the reigns over to him. While DC Grant's report and my report may look light, we have spent a great deal of time getting him acquainted with his new role. March will show DC Grant taking a greater role in all things Fire Prevention, Public Education and Wildland Mitigation projects while I focus on wrapping up some loose ends.

MCFR INFORMATION SHEET

DATE: March 10th, 2025

TO: Fire District Board of Directors

FROM: David Jensen, Fire Chief

ISSUE: Standards of Coverage

SYNOPSIS: Presentation of the Standards of Coverage

BACKGROUND:

The Community Risk Assessment and Standards of Coverage is a global service-level document. It outlines the risks in our Fire District and the current service level the District provides. A Standards of Cover document systematically reviews emergency services provided by an agency. It is a tool to be used for assessing community risks, setting emergency response objectives, planning future station locations, determining apparatus and staffing, evaluating workload, measuring service performance, and supporting strategic planning and resource allocation.

BUDGET IMPLICATION: None

RECOMMENDATION/ACTION:

No action is required at this board meeting.
Review and consider for adoption at the April 2025 Board Meeting.

MCFR INFORMATION SHEET

DATE: March 10th, 2025

TO: Fire District Board of Directors

FROM: David Jensen, Fire Chief

ISSUE: Mosier Fire District Future Working Relationship

SYNOPSIS: Process to engage in discussion with Mosier Fire District regarding a future working partnership.

BACKGROUND:

On February 27th, I sent out a board brief to all board of directors and a memorandum to all personnel regarding the engagement of Mosier Fire District in discussions about a possible future partnership. All divisions participated in sending information regarding the current services MCFR offers and what a future Mosier Partnership could mean regarding integrations with our current services. Chief Beckner and I met with two of the Mosier Board members on March 6th to discuss these services and the needs Mosier desired.

The primary needs of Mosier expressed were their current lack of consistency and level of training, involvement and inclusion of the current Mosier Fire District volunteer force, their current commitment to their Joint Use Facility agreement with the City of Mosier, and operational response expectations.

As a brief and global overview, the Mosier Fire District:

- No longer has paid staff except for seasonal wildland firefighters
- Expects \$370,000 in tax revenue next fiscal year
- Has committed to \$36,000 annually to a joint use facility in the City of Mosier which includes a physical fire station.
- Had approximately 135 dispatched calls for service in 2024
- Has ambulance coverage by the City of Hood River Fire Department for their entire Fire District
- Has an Automatic Aid Agreement with MCFR for about half of the Mosier Fire District.
- Has current Automatic Aid Agreements with the National Scenic Area.

The Mosier Fire Board representatives and our Administrative representatives were satisfied with the answers to the extent the Mosier Representatives stated they would report back to their board at their next meeting on March 13th.

If the board chooses to further investigate a full partnership with MCFR, I recommend an administrative analysis of current supplies and gear, capital equipment, capital replacement schedules, liabilities, and in a broad context, and general material and services needs for Fiscal Year 2025/26. Once this is collected for evaluation, I would further recommend a workshop between the Boards of MCFR and Mosier Fire District.

I have attached to this board packet a sample services contract between Clackamas Fire District #1 and Sandy Fire District which could be used as a general template for a services agreement.

BUDGET IMPLICATION: There is no budget implication to engage in an exploratory process.

RECOMMENDATION/ACTION:

Consensus on a process for the Fire Chief to further engage in meetings regarding Operational, Administrative, and Financial impacts of a functional contracted partnership with Mosier Fire District:

- 1) Conduct a joint analysis with the Mosier Fire District regarding current and future liabilities and needs.
- 2) Schedule a workshop meeting of the full Board of Directors of both Mosier Fire District and Mid-Columbia Fire and Rescue to discuss the feasibility of a partnership.

**INTERGOVERNMENTAL AGREEMENT BETWEEN
SANDY FIRE DISTRICT #72 and CLACKAMAS FIRE DISTRICT #1
FOR
ALL FIRE PROTECTION AND EMERGENCY MEDICAL SERVICES**

This Intergovernmental Agreement is entered into by and between Sandy Fire District #72 ("SANDY") and Clackamas Fire District #1 ("CLACKAMAS") pursuant to ORS Chapter 190. It supersedes all other existing agreements for services between the parties. This Intergovernmental Agreement (the "AGREEMENT") is entered into under the authority granted to the parties by ORS 190, which authorizes units of local government to enter into written agreements with any other units of local government for the purpose of any and all functions and activities that the parties to the agreement, its officers, or agencies, have authority to perform.

The parties agree as follows:

2. Scope of Services. CLACKAMAS agrees to provide fire protection, fire prevention, emergency medical services, and other services to SANDY generally consistent with the services currently provided within CLACKAMAS ("Services"). However, in providing Services, CLACKAMAS will assign priority to the Services by taking into consideration both Parties' environment, timelines, and needs, as well as CLACKAMAS's own obligations, policies and procedures, as they may be changed from time to time.

 - C. Ensure the SANDY fire stations, apparatus, equipment, and uniforms/PPE meet CLACKAMAS standards as enumerated in standard operating procedures, prescribed load lists, and in customary practice and to reimburse CLACKAMAS for any costs borne by CLACKAMAS in bringing the aforementioned to its standards.
 - D. Update the fire station and its systems (e.g., HVAC) as requirements for facility design and/or performance changes are mandated at the state or federal level.
 - E. Provide CLACKAMAS sole use of fire protection and emergency medical services facilities and equipment owned or leased by SANDY. SANDY shall retain ownership of SANDY-owned facilities and shall pay for capital improvements and capital and durable assets as determined by CLACKAMAS and reviewed and approved by the SANDY board. If SANDY decides to sell or transfer ownership of SERVICES-related facility or equipment not already transferred to CLACKAMAS under this AGREEMENT, SANDY shall offer CLACKAMAS a right-of-first-refusal to purchase all such facilities and equipment during and for one year after the end of SERVICES. SANDY shall give CLACKAMAS not less than 30 days prior written notice of SANDY's intent to dispose of any such property and CLACKAMAS shall have not less than 60 days from the receipt of SANDY's notice of intent to dispose to respond in writing regarding whether it wishes to exercise its right of first refusal.

CLACKAMAS will maintain those vehicles and apparatus in the same manner which CLACKAMAS maintains CLACKAMAS -owned vehicles and apparatus. SANDY agrees to not sell any vehicle or apparatus which are part of this AGREEMENT without consulting and the mutual agreement of CLACKAMAS. If SANDY decides to sell or transfer ownership of SERVICES-related vehicles or apparatus not already transferred to CLACKAMAS under this AGREEMENT, SANDY shall offer CLACKAMAS a right-of-first-refusal to purchase all such vehicles and apparatus during and for one year after the end of SERVICES. SANDY shall give CLACKAMAS not less than 30 days prior written notice of SANDY's intent to dispose of any such property and CLACKAMAS shall have not less than 60 days from the receipt of SANDY's notice of intent to dispose to respond in writing regarding whether it wishes to exercise its right of first refusal.
- G. Not require CLACKAMAS to duplicate those efforts or services regularly provided by other governmental agencies and agrees CLACKAMAS shall not be required to provide any services, which are or are hereafter specifically reserved by law for any other governmental agency.

Subject to annual appropriation as provided in Section 6.C.2, SANDY agrees to pay CLACKAMAS the full amount of current-year and prior-year property taxes collected at Sandy's current tax rate of \$2.1775 per \$1,000 assessed valuation to enable CLACKAMAS to provide the Services during the term of this AGREEMENT.

- b. The quarterly payment amounts shall be estimates determined as part of the annual budget process. The quarterly payment amounts will be determined by estimating the total annual property tax revenue amount and dividing by four.
- c. Each July beginning July 2024, the actual property taxes collected in the prior fiscal year will be reconciled with the actual quarterly payments (based on the budget estimate) from SANDY to CLACKAMAS in the

prior fiscal year. If total quarterly payments were more than actual property tax collections, CLACKAMAS agrees to refund the difference to SANDY's account. If total quarterly payments were less than actual property tax collections, SANDY agrees to pay the difference to CLACKAMAS.

B. SANDY also agrees to pay the one-time transition costs to CLACKAMAS as described in the other sections of this AGREEMENT. CLACKAMAS shall furnish to SANDY a complete list of known, specific items constituting the transition costs prior to the execution of this agreement. CLACKAMAS will inform SANDY if additional transition cost items are identified.

C. Other Compensation Terms:

1) If, during the term of this AGREEMENT the taxing authority of CLACKAMAS and / or SANDY is limited by a State-wide ballot measure, Legislative action, a Court decision, any other reason, and if, as a result of the tax limitation, CLACKAMAS is unable to provide the level of service described in Section 2 above, or if SANDY is unable to pay CLACKAMAS for the established levels of service, the parties agree to renegotiate this AGREEMENT in good faith or to agree to an earlier termination of this AGREEMENT.

2) SANDY agrees to propose a budget containing an appropriation of sufficient funds to make payments under this AGREEMENT as part of its annual budget process and use its best efforts to obtain approval of the budget. If SANDY fails at any time to appropriate the funds necessary for this AGREEMENT, this AGREEMENT will terminate upon not less than thirty (30) days written notice from CLACKAMAS notwithstanding the provisions of Section 16.

3) Should this AGREEMENT be terminated prior to July 1, 2030, SANDY agrees to pay the portion of any service or lease agreement which is attributed to CLACKAMAS' service to SANDY until the expiration of such agreements provided that the service or lease agreement has been approved by SANDY in its budgeting processes under this Agreement.

A. CLACKAMAS agrees to manage any grants awarded to SANDY which have not been closed out as of the date of this AGREEMENT.
